PURE GERMAN ORIGINS

At Kitchen Culture, we believe that life revolves around the kitchen

You can trust Kitchen Culture

Why we love kitchens and why you deserve the best

At Kitchen Culture, we believe that life revolves around the kitchen.

The kitchen is the heart of your home. It is a sanctuary where you gather with your family members and friends to enjoy one another's company over a meal. At Kitchen Culture we believe that authentic relationships matter and a beautifully designed kitchen can enhance the occasions where you spend precious moments with those whom you care about. So, our mission is to go beyond just the basic culinary functions of a kitchen by offering premium kitchens that stand out in design, function and form. Our kitchens are strikingly beautiful and perfect in function.

Introducing our very own Kitchen Culture brand of kitchens

This catalog features our own Kitchen Culture brand of kitchens made in Germany, especially for those who believe what we believe about German kitchens but on a smaller budget, to the same high standards as our other premium brands. We have 9 different designs for each model that you can choose from. But if you require some customization, our designers can work with you to realize your dream German kitchen. Visit our showroom or website to check out the promotions available.

Our Track Record

Kitchen Culture has been in business for over 30 years, bringing premium German kitchen brands such as Poggenpohl, Eggersmann, La Cornue, Leicht and Hacker to home owners in Singapore and in the region. These are some projects that we have completed or are ongoing:
